### About me

---

I am 20 years old, I am a student at the International University of Information Technologies(IITU), I studied the basics of JS on my own at [learn.javascript.ru](https://learn.javascript.ru) and received a grant to study at DSAcademy.

I strive to become a professional front-end developer and find my first offer as soon as possible.

### Education

---

2017-2021 Innovative Technical College of Almaty

2021-2024 International Information Technology University

## Skills

---

- HTML5
- CSS3
- JavaScript (Basic)
- Tools
  - SCSS
  - Figma, photoshop
- Methodologies
  - BEM

## Code Example

---

### Duplicate Encoder

Task: The goal of this exercise is to convert a string to a new string where each character in the new string is "(" if that character appears only once in the original string, or ")" if that character appears more than once in the original string. Ignore capitalization when determining if a character is a duplicate.

```
function duplicateEncode(word){
  let result = '';
  const duplicates = word.toLowerCase().split('').filter((number, index, values) => {
    return values.indexOf(number) !== index;
  })

  word.toLowerCase().split('').map(item => {
    if (duplicates.includes(item)) {
      result += ')';
    } else {
      result += '(';
    }
  })

  return result;
}
```

## Experience

---

I have no working experience, I was engaged in the layout of small sites, landing pages for myself.

Tools:

- HTML

- CSS
  - SCSS
- JS
- BEM

Site of the "Sagmau" campaign, for building quarries. You can see the project at the link below.

[Samgau](#)

Online store "Sofa" selling furniture. You can see the project at the link below.
